1-ABOUT US

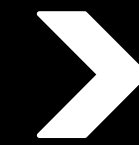

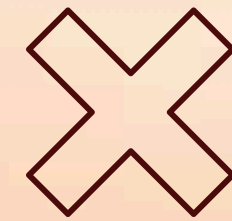

SCRETE MINING is an Egyptian company specialized in the extraction and exporting of premium Egypt's rich natural salt resources, especially the high-purity salt deposits of Siwa Oasis and Egyptian sea salt fields Salt products for international markets with strong sourcing capabilities and reliable export operations, we provide high-quality salt solutions for a wide range of industrial and commercial applications worldwide.

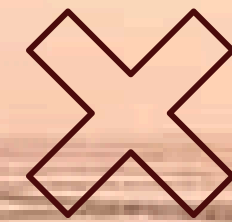

OUR VALUES

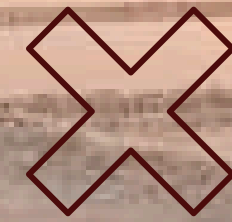

Reliability

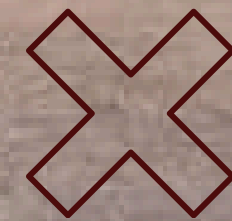

Quality Commitment

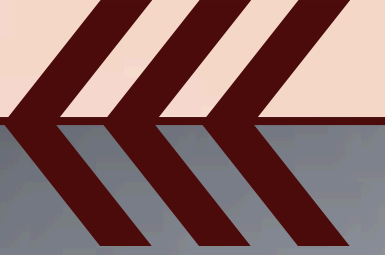

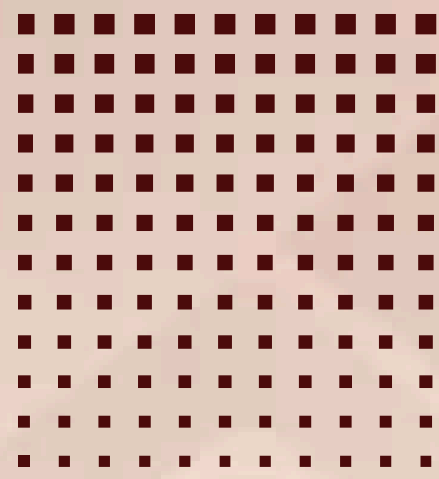

Long-Term Partnerships

Flexible Supply Solutions

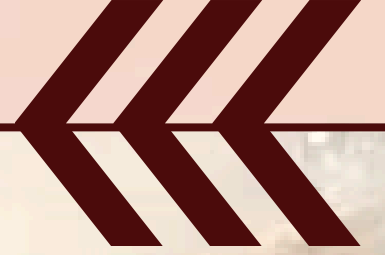

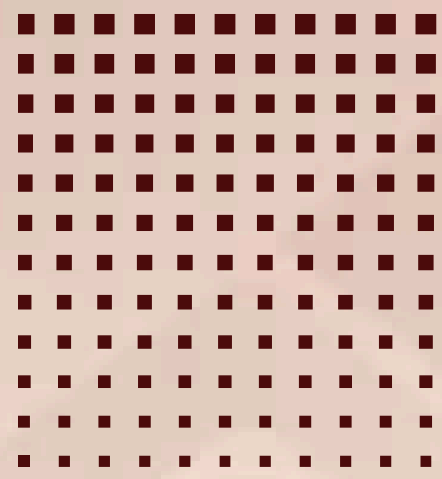

Professional Export Operations

OUR MISSION

To export high-quality Egyptian Rock Salt and Sea Salt products to international markets through reliable sourcing, consistent specifications, flexible packaging, and professional export operations.

OUR VISION

To become a trusted global partner in the Egyptian salt industry by building sustainable relationships with international clients, promoting confidence in Egyptian salt products, and opening new markets worldwide through quality, reliability, and professional export operations.

OUR PRODUCTS

Our products are mainly divided into
4 categories:

A. SIWA ROCK SALT

B. SEA SALT (Solar Salt)

C. Calcium Carbonate

D. Decorative Gravel

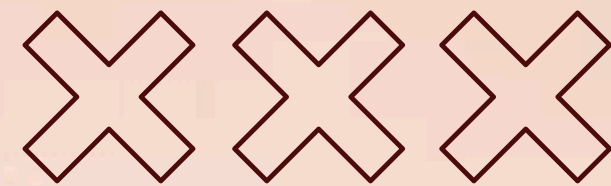

A. SIWA ROCK SALT

Siwa Rock Salt is a natural Egyptian rock salt sourced from Siwa Oasis, one of Egypt's most recognized salt regions. Known for its natural quality and solid crystalline structure.

main application

DE-ICING & WINTER ROAD MAINTENANCE

Siwa Rock Salt is widely used for de-icing roads, highways, parking areas, industrial zones, and winter maintenance operations, it helps reduce ice formation and improve road safety during freezing weather conditions, making it suitable for cold-region markets and winter supply programs.

SPECIFICATION

Sodium Chloride – NaCl

96% - 99%

Moisture Content

≤ 1.0%

Water Insoluble Matter

≤ 1.0%

Calcium + Magnesium

≤ 0.8%

Sulphate – SO₄

≤ 0.5%

Particle Size

As customer request

Color

Natural White / Off-White

Packaging

Bulk / Jumbo Bags / 25 kg Bags

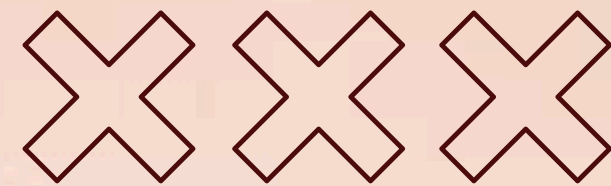

B. SEA SALT(SOLAR SALT)

Sea Salt is produced from natural seawater through evaporation and processing stages, making it suitable for various industrial, commercial, and technical applications from different sources in Egypt such as Alexandria, Damietta, North Sini and Portsaid.

SCRETE MINING supplies Sea Salt in different grades and specifications to meet the requirements of multiple sectors and international markets.

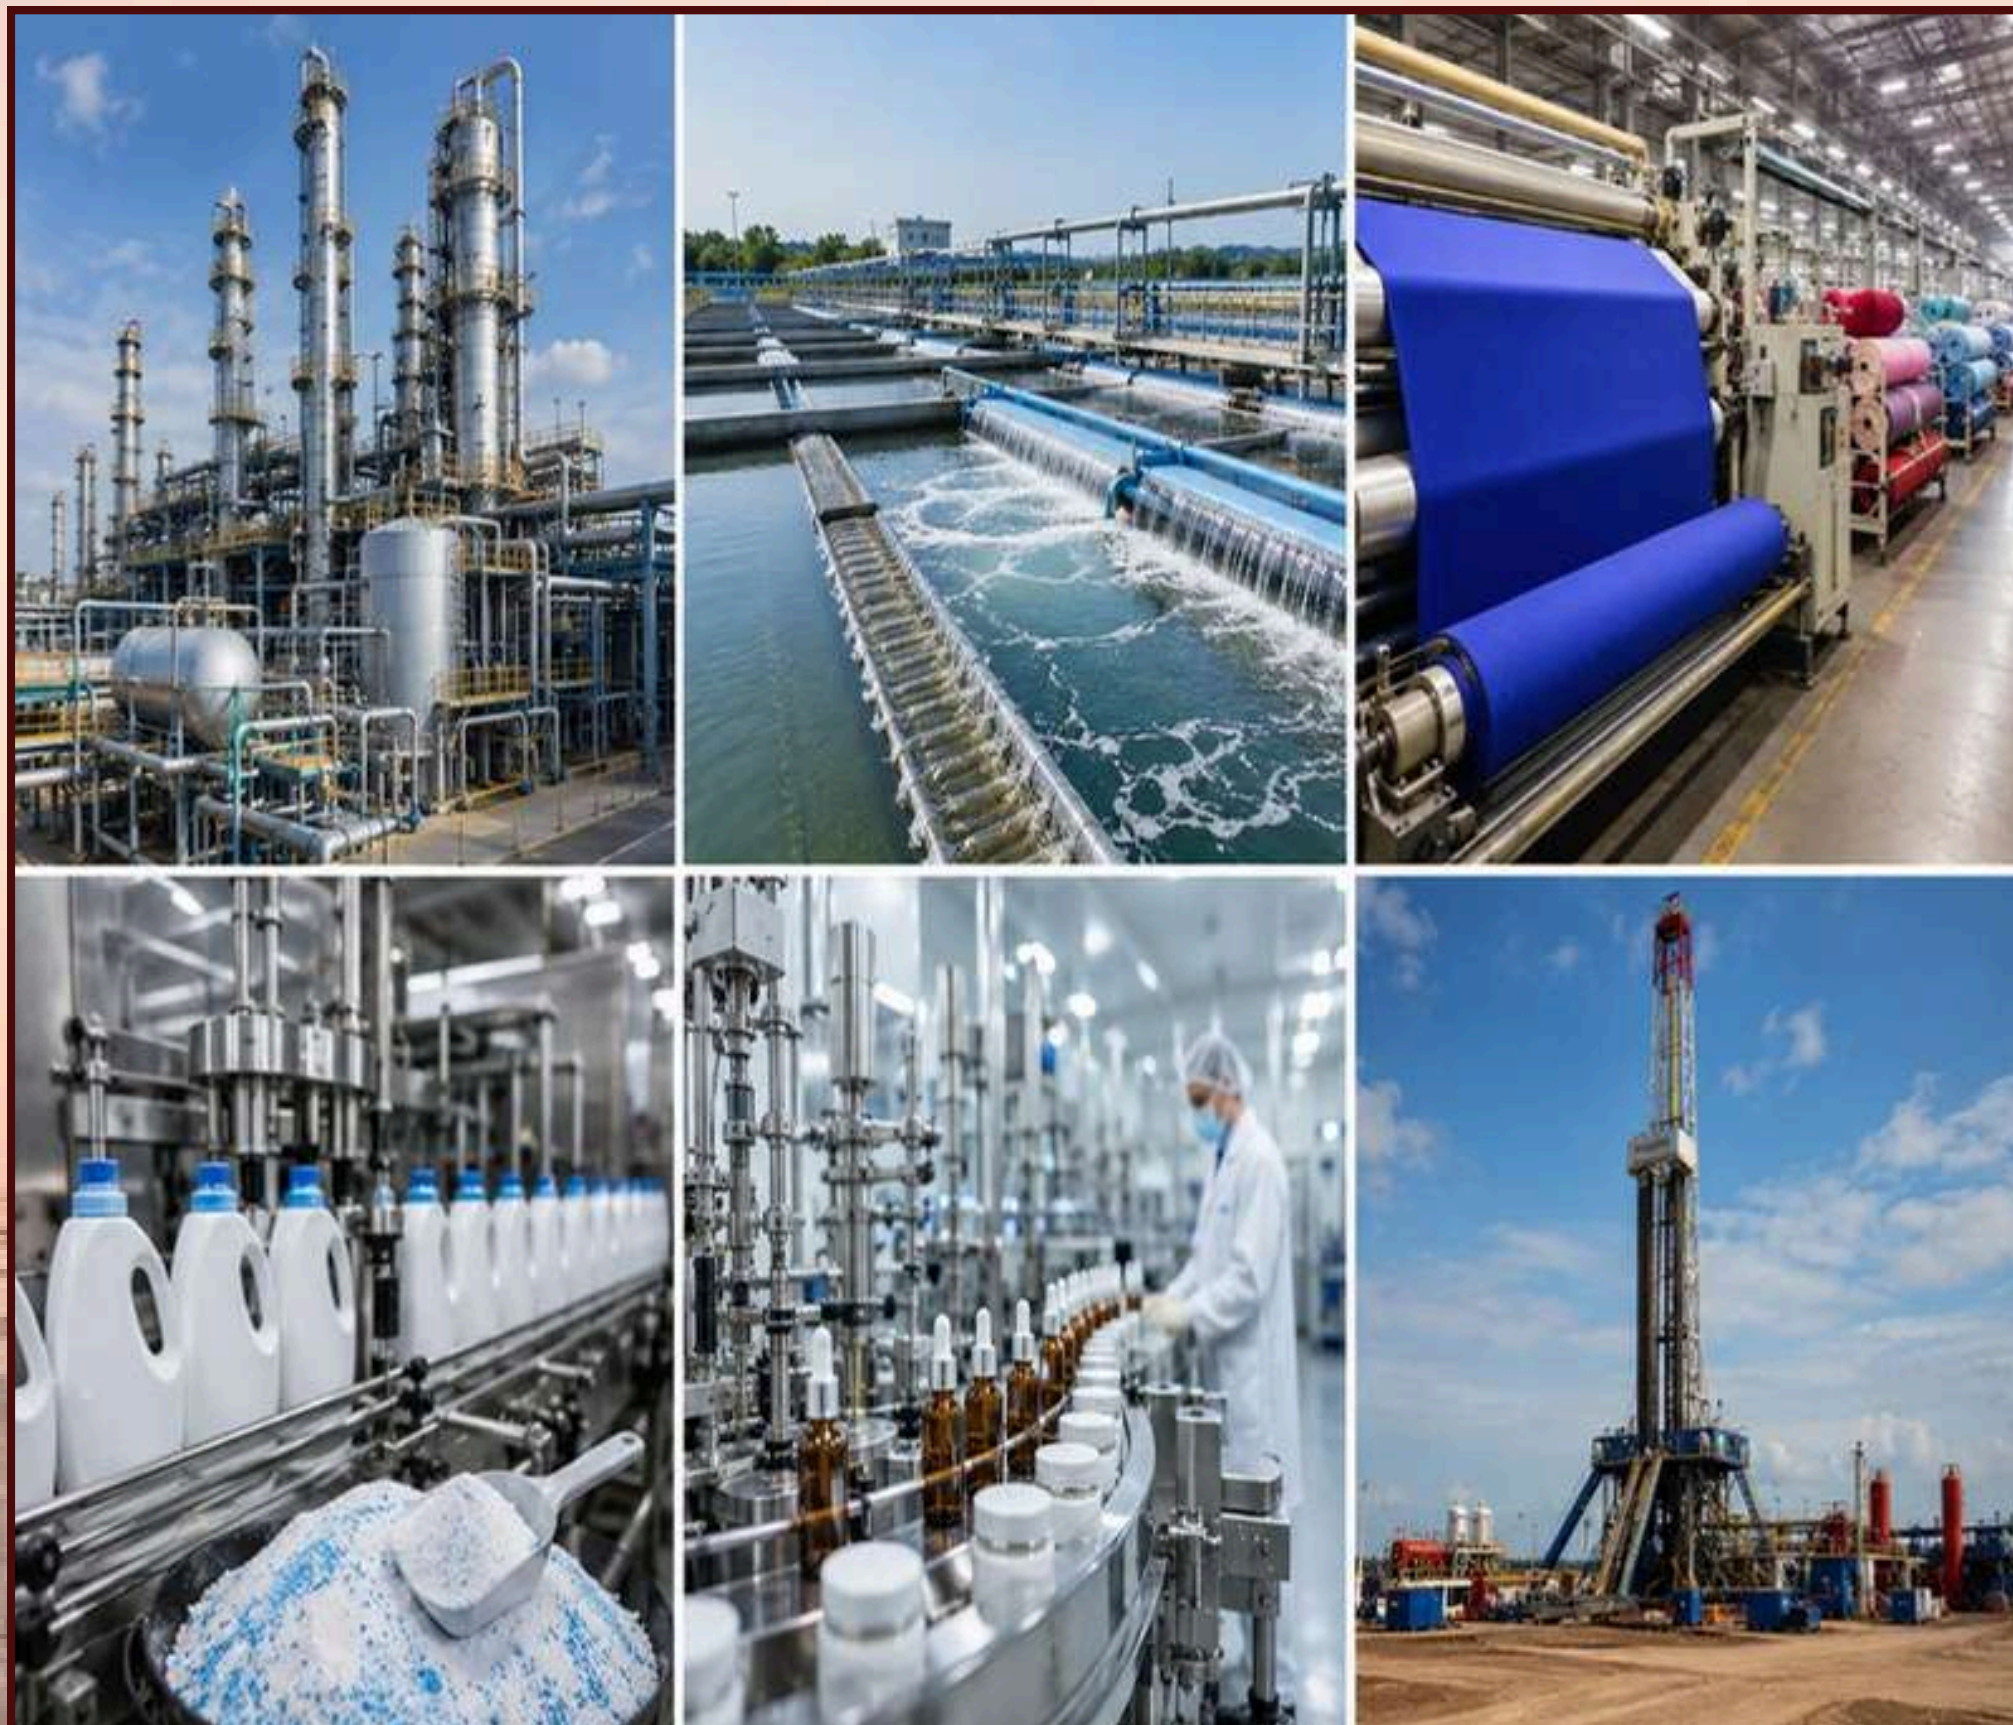

main applications

1-INDUSTRIAL SALT

Used in chemical industries, textile, leather, drilling, detergents, and general, Pharmaceutical and Cosmetic Industries, industrial processes.

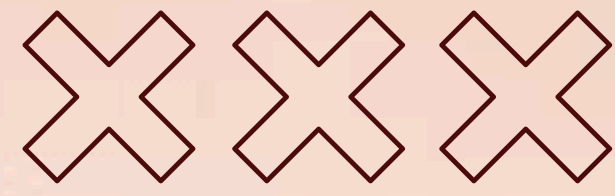

➤ SPECIFICATION

Sodium Chloride – NaCl	96% - 99%
Moisture Content	≤ 3.0%
Water Insoluble Matter	≤ 0.5%
Calcium + Magnesium	≤ 1.0%
Sulphate – SO₄	≤ 0.8%
Particle Size	Fine / Medium / Coarse
Packaging	Bulk / Jumbo Bags / 25 kg Bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

2-FOOD GRADE SALT

Used in table Salt, food processing, seasoning, preservation, and other food-related applications according to required specifications.

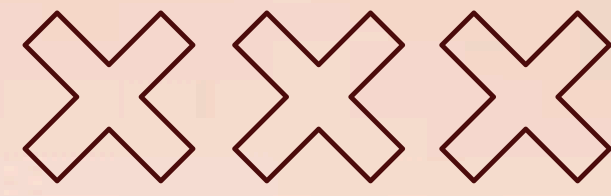

➤ SPECIFICATION

Sodium Chloride – NaCl	≥ 99.0%
Moisture Content	≤ 0.5%
Water Insoluble Matter	≤ 0.1%
Calcium + Magnesium	≤ 0.3%
Iodine Content	As required
Heavy Metals	As per required standard
Packaging	1 kg / 25 kg / Customized

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

3-POOL SALT

Used for swimming pool water treatment and salt chlorination systems.

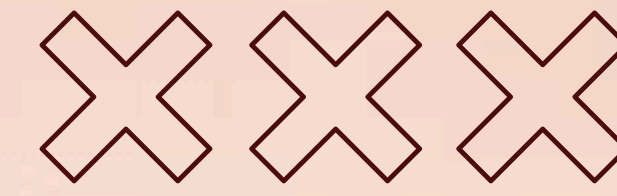

➤ SPECIFICATION

Sodium Chloride – NaCl	≥ 99.5%
Moisture Content	≤ 0.3%
Water Insoluble Matter	≤ 0.05%
Calcium + Magnesium	Low Content
Iron – Fe – Copper – Cu	Low ppm
Anti-Caking Agent	Free / As required
Packaging	10 kg / 25 kg / Customized

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

4-TABLET SALT

Water Softening / Water Treatment

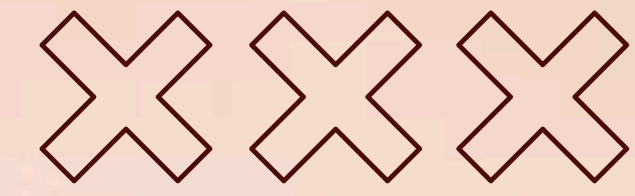

➤ SPECIFICATION

Sodium Chloride – NaCl	≥ 99.5%
Moisture Content	≤ 0.3%
Water Insoluble Matter	≤ 0.05%
Tablet Size	As per customer request
Tablet Hardness	Standard / As required
Dissolution Rate	Controlled
Packaging	25 kg Bags / Customized

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

5-FEED SALT

Used in animal feed formulations and livestock nutrition.

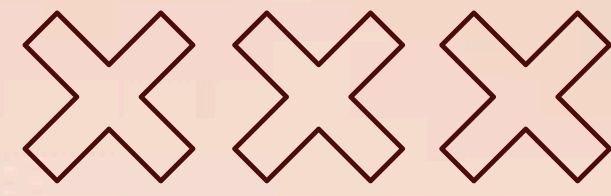

➤ SPECIFICATION

Sodium Chloride – NaCl	96% - 98.5%
Moisture Content	≤ 1.0%
Water Insoluble Matter	≤ 0.5%
Calcium + Magnesium	≤ 1.0%
Iron	As required
Heavy Metals	As per feed standard
Packaging	25 kg Bags / Jumbo Bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

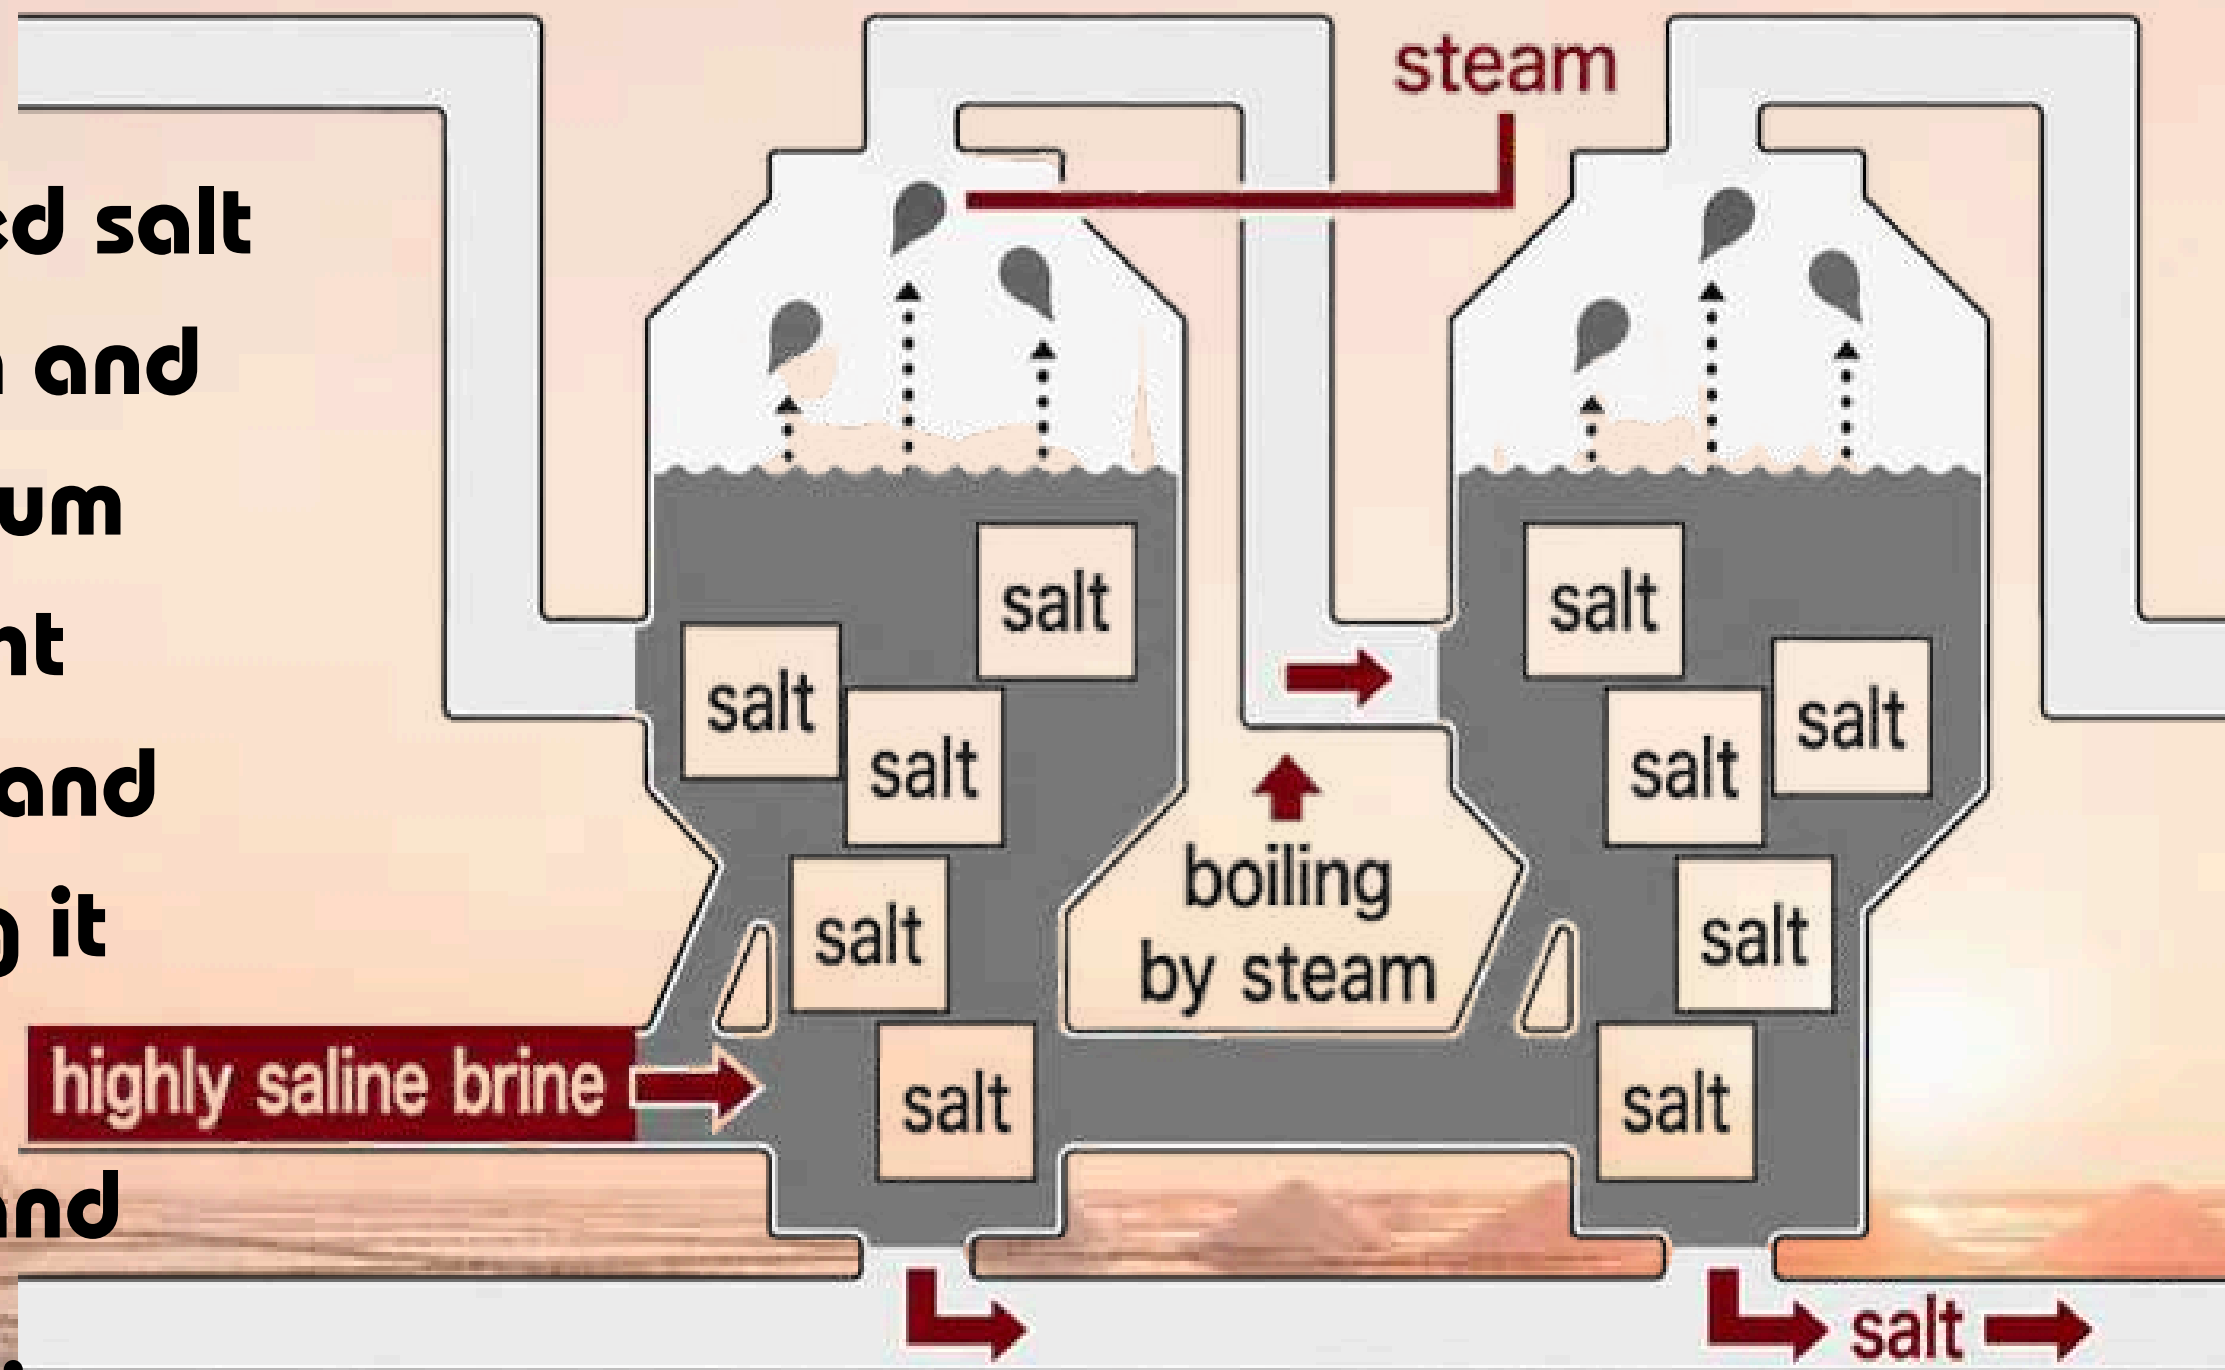

5-VACUUM SALT

Vacuum Salt is a high-purity refined salt produced through an evaporation and crystallization process under vacuum conditions. It is known for its bright white color, fine crystal structure, and consistent chemical purity, making it

suitable for

food, chemical, pharmaceutical, and high-grade industrial applications.

➤ SPECIFICATION

Sodium Chloride – NaCl	99.5% – 99.9%
Moisture Content	Max. 0.10% – 0.30%
Water Insoluble Matter	Max. 0.03% – 0.10%
Calcium	0.02% – 0.05%
Magnesium	0.01% – 0.03%
Sulphate – SO₄	As per feed standard
Packaging	25 KG Bags / 10 KG Bags / 1 KG Bags / Jumbo Bags

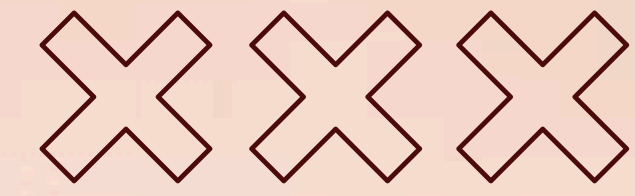

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

C. CALCIUM CARBONATE

SCRETE MINING offers premium Egyptian Calcium Carbonate produced from high-purity limestone. Our Calcium Carbonate is available With flexible packaging, reliable quality control, and export-ready documentation, **SCRETE MINING** provides trusted calcium carbonate solutions for international markets.

main applications

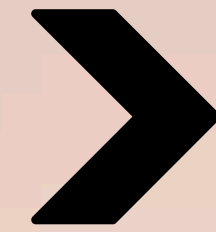

1. GROUND CALCIUM CARBONATE – GCC

Natural calcium carbonate powder produced by grinding high-purity limestone or marble.

Applications:

Paints, plastics, PVC, rubber, construction chemicals, paper, animal feed, and general industrial applications.

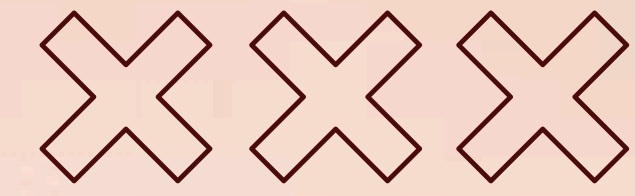

SPECIFICATION

CaCO₃ Content	95% - 99%
Whiteness	90% - 97%
Moisture	Max. 0.3% - 0.5%
pH Value	8 - 9
Fe₂O₃	Max. 0.05% - 0.15%
MgO	Max. 0.5% - 1.5%
SiO₂	Max. 0.5% - 2.0%
Particle Size	45 micron / 325 mesh or as required
Packaging	25 kg bags, 50 kg bags, jumbo bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

2. MICRONIZED CALCIUM CARBONATE

Fine calcium carbonate powder available in different particle sizes according to customer requirements.

Common Grades:

45 micron, 20 micron, 10 micron, 5 micron, and 2 micron.

Applications:

Paints, plastics, PVC, rubber, masterbatch, paper, and coatings.

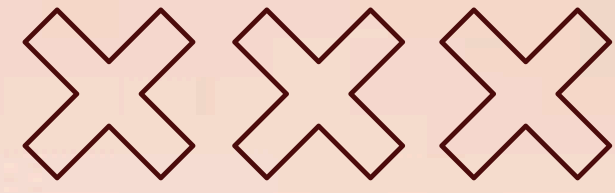

SPECIFICATION

CaCO₃ Content	97% - 99.5%
Whiteness	93% - 98%
Moisture	Max. 0.2% - 0.4%
pH Value	8 - 9
Oil Absorption	18 - 28 g/100g
Particle Size Options	Max. 0.5% - 1.5%
D97	According to grade
Packaging	25 kg bags, jumbo bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

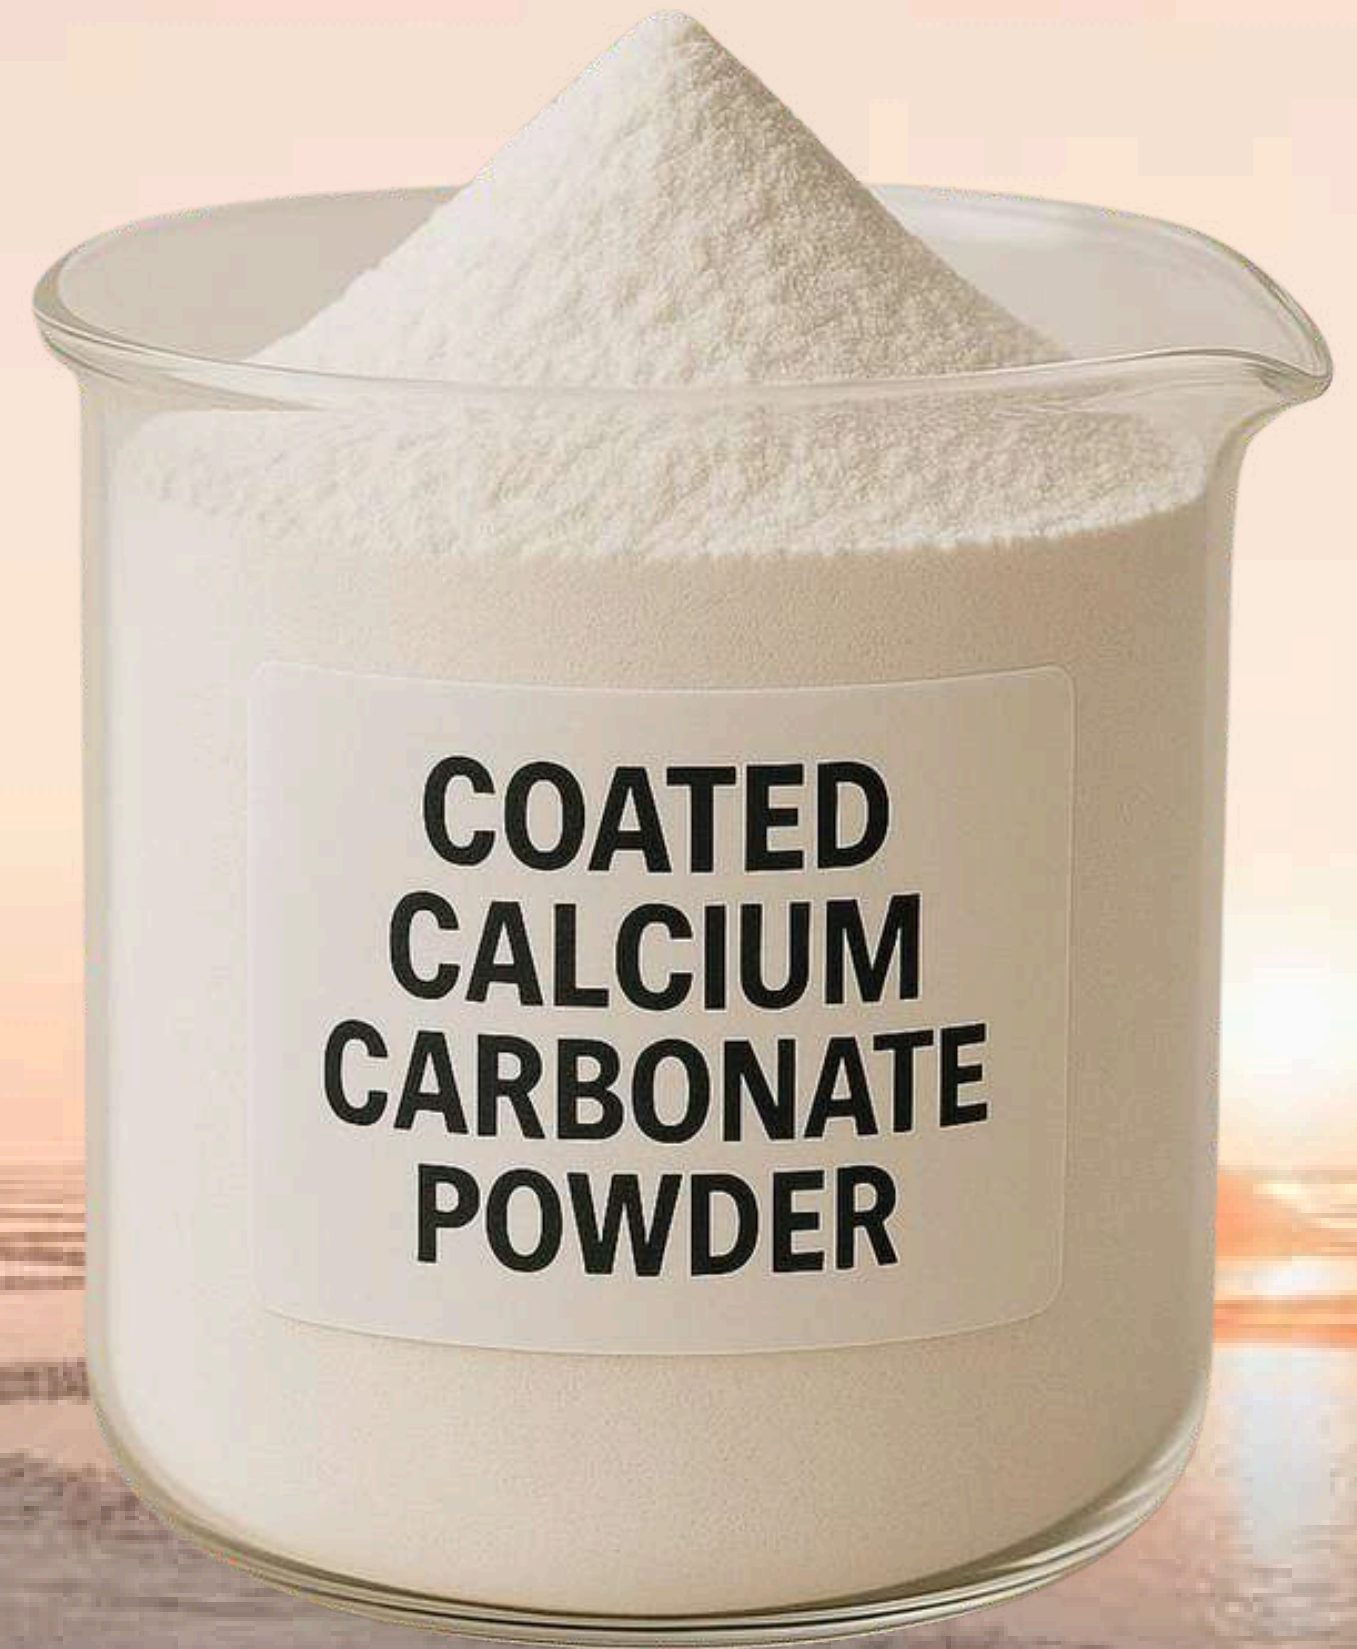

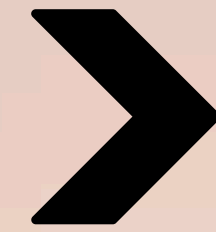

3. COATED CALCIUM CARBONATE

Calcium carbonate treated with a surface coating, commonly stearic acid, to improve compatibility with polymers.

Applications:

PVC pipes, plastic compounds, masterbatch, cables, rubber, and polymer industries.

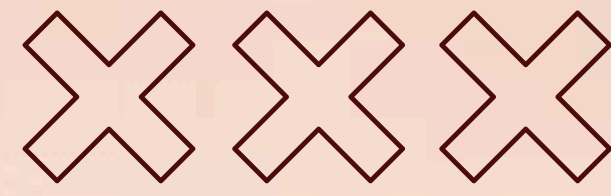

SPECIFICATION

CaCO₃ Content	96% - 99%
Whiteness	92% - 97%
Moisture	Max. 0.2% - 0.4%
pH Value	8 - 9
Coating Ratio	0.8% - 1.5%(Stearic Acid Coated)
Particle Size Options	1 micron - 10 micron
Hydrophobicity	High
Packaging	25 kg bags, jumbo bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

4. CALCIUM CARBONATE GRANULES / CHIPS

Coarser calcium carbonate grades supplied in granule or chip form.

Applications:

Animal feed, glass, agriculture, water treatment, and general industrial uses.

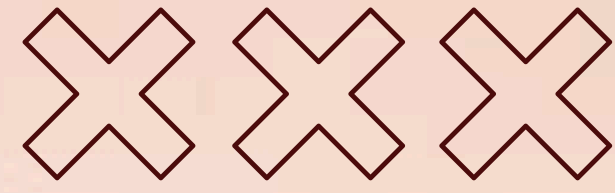

➤ SPECIFICATION

CaCO₃ Content	90% - 98%
Whiteness	85% - 95%
Moisture	Max. 0.5% - 1.0%
Dust Content	Low
Size Range	0.5-1 mm, 1-3 mm, 3-5 mm, or as required
Packaging	25 kg bags, 50 kg bags, jumbo bags, bulk

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

5. FEED GRADE CALCIUM CARBONATE

Calcium carbonate used as a calcium source in animal nutrition.

Applications:

Poultry feed, livestock feed, aquaculture feed, and eggshell quality improvement.

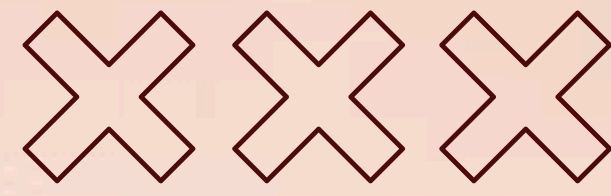

SPECIFICATION

CaCO₃ Content	95% - 99%
Calcium Content	Approx. 38% - 40%
Moisture	Max. 0.5%
Acid Insoluble Ash	Max. 1% - 2%
Heavy Metals	Within feed-grade limits
Appearance	White powder or granules
Particle Size	Powder or granules as required
Packaging	25 kg bags, 50 kg bags, jumbo bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

main applications

6. INDUSTRIAL GRADE CALCIUM CARBONATE

A versatile grade used across multiple manufacturing sectors.

Applications:

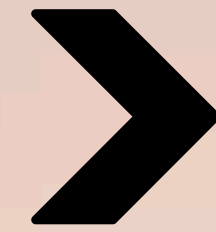

Paints, plastics, rubber, PVC, adhesives, sealants, construction materials, and industrial compounds.

Screte MINING

Calcium Carbonate Applications

High Purity.
Consistent Quality.
Endless Possibilities.

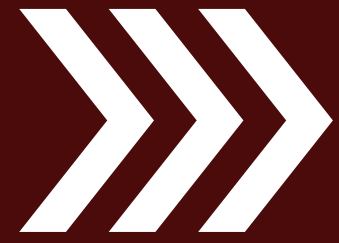

- PLASTICS & PVC
- PAINTS & COATINGS
- RUBBER
- PAPER
- CONSTRUCTION CHEMICALS
- GLASS & CERAMICS
- AGRICULTURE
- ANIMAL FEED
- CABLES & MASTERBATCH

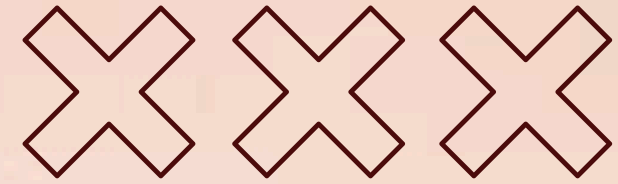

SPECIFICATION

CaCO₃ Content	94% - 99%
Whiteness	88% - 97%
Moisture	Max. 0.5%
pH Value	8 - 9
Fe₂O₃	Max. 0.05% - 0.2%
Appearance	White powder or granules
Particle Size	Customized
Packaging	25 kg bags, 50 kg bags, jumbo bags

- Final specifications shall be confirmed according to laboratory analysis, COA, and customer requirements.

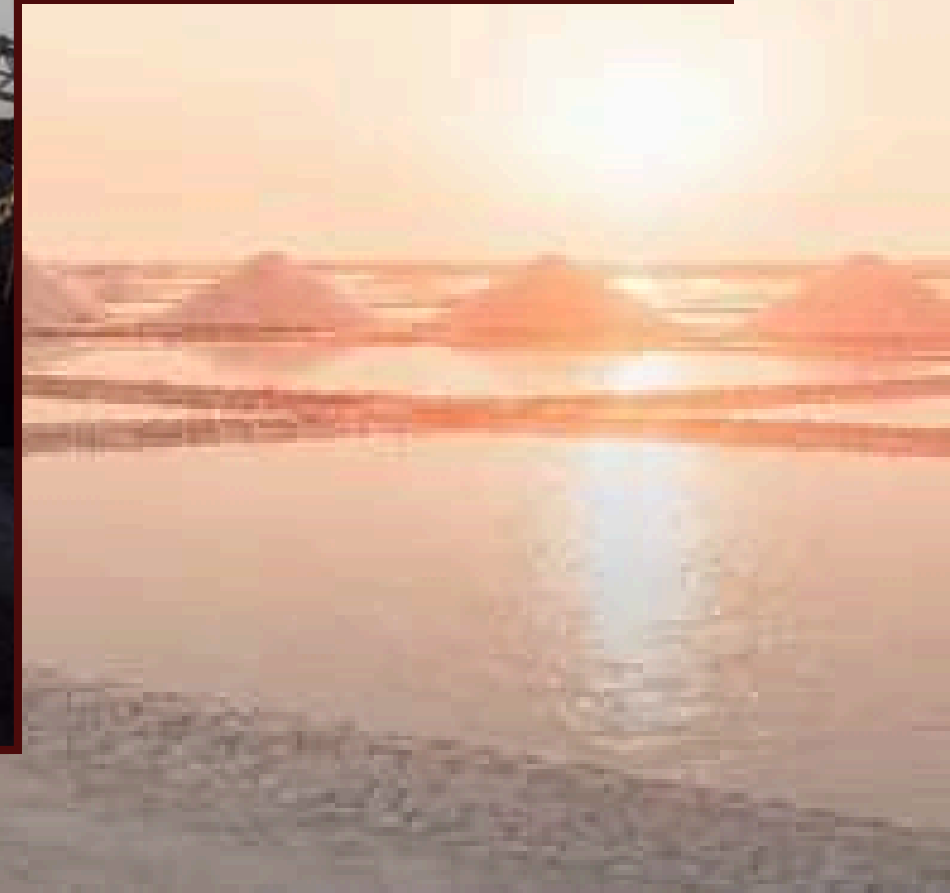

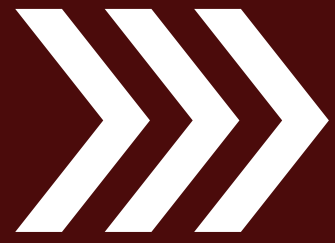

PACKING

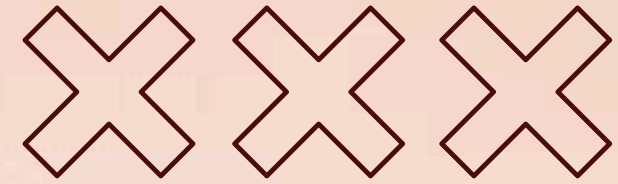

1-BULK SUPPLY

Suitable for large-scale shipments, industrial use, and de-icing salt supply, especially for bulk buyers and high-volume projects.

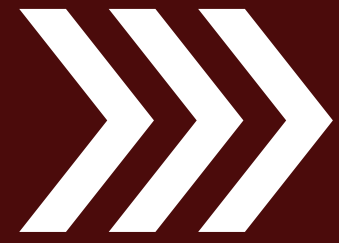

PACKING

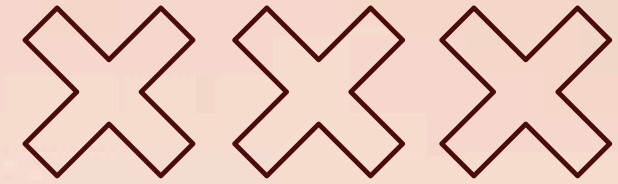

2-JUMBO BAGS

Available for rock salt, solar salt, industrial salt, and feed salt. This option is suitable for export handling, storage, and bulk distribution.

PACKING

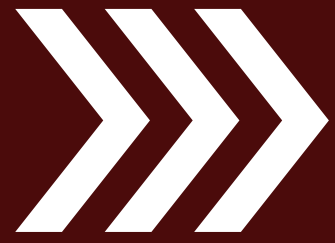

3- 25 KG, 10 KG,

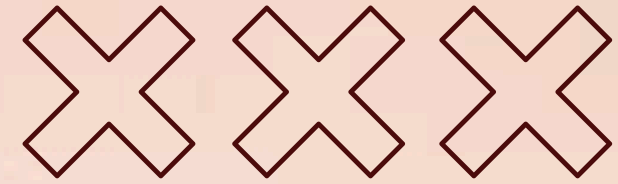

1KG BAGS

A standard commercial packing option suitable for industrial salt, pool salt, feed salt, food grade salt, and other salt applications depending on customer requirements.

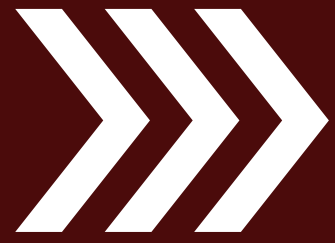

PACKING

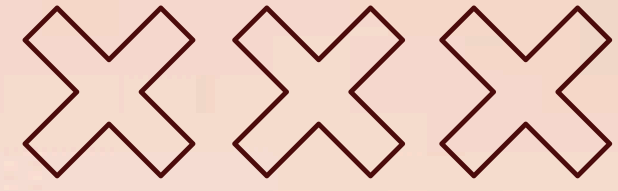

4-TABLET SALT BAGS

Used for tablet salt applications, especially water softening and water treatment systems.

PACKING

5-CUSTOMIZED PACKING

SCRETE MINING can provide customized bag sizes, private label packing, and special export packing according to buyer specifications and market requirements.

PRIVATE LABEL PACKING

Customized printed bags can be provided according to buyer branding and market requirements.

PALLETIZING & WRAPPING

Packing can be supplied with palletizing and stretch wrapping upon request for better handling and container loading.

D. DECORATIVE GRAVEL

SCRETE provides a premium range of decorative gravel and natural stone materials for landscaping and architectural decoration.

Our collection Available in different colors, sizes, and finishes to suit modern, classic, and natural design styles.

Ideal for gardens, pathways, planters, fountains, swimming pools, villas, resorts, and indoor decorative applications.

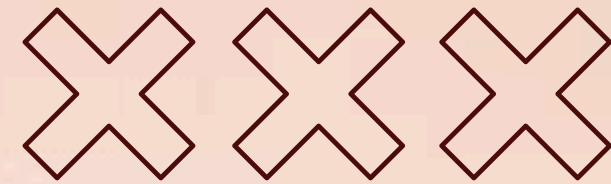

SCRETE MINING

DECORATIVE GRAVEL COLLECTION

Natural Stones for Landscaping & Architectural Finishes

 NATURAL STONE 100% Natural and Durable	 PREMIUM FINISH Clean, Polished and Consistent	 MULTIPLE COLORS Wide Range of Beautiful Options	 LANDSCAPE SOLUTIONS Ideal for Any Outdoor Space
---	--	--	--

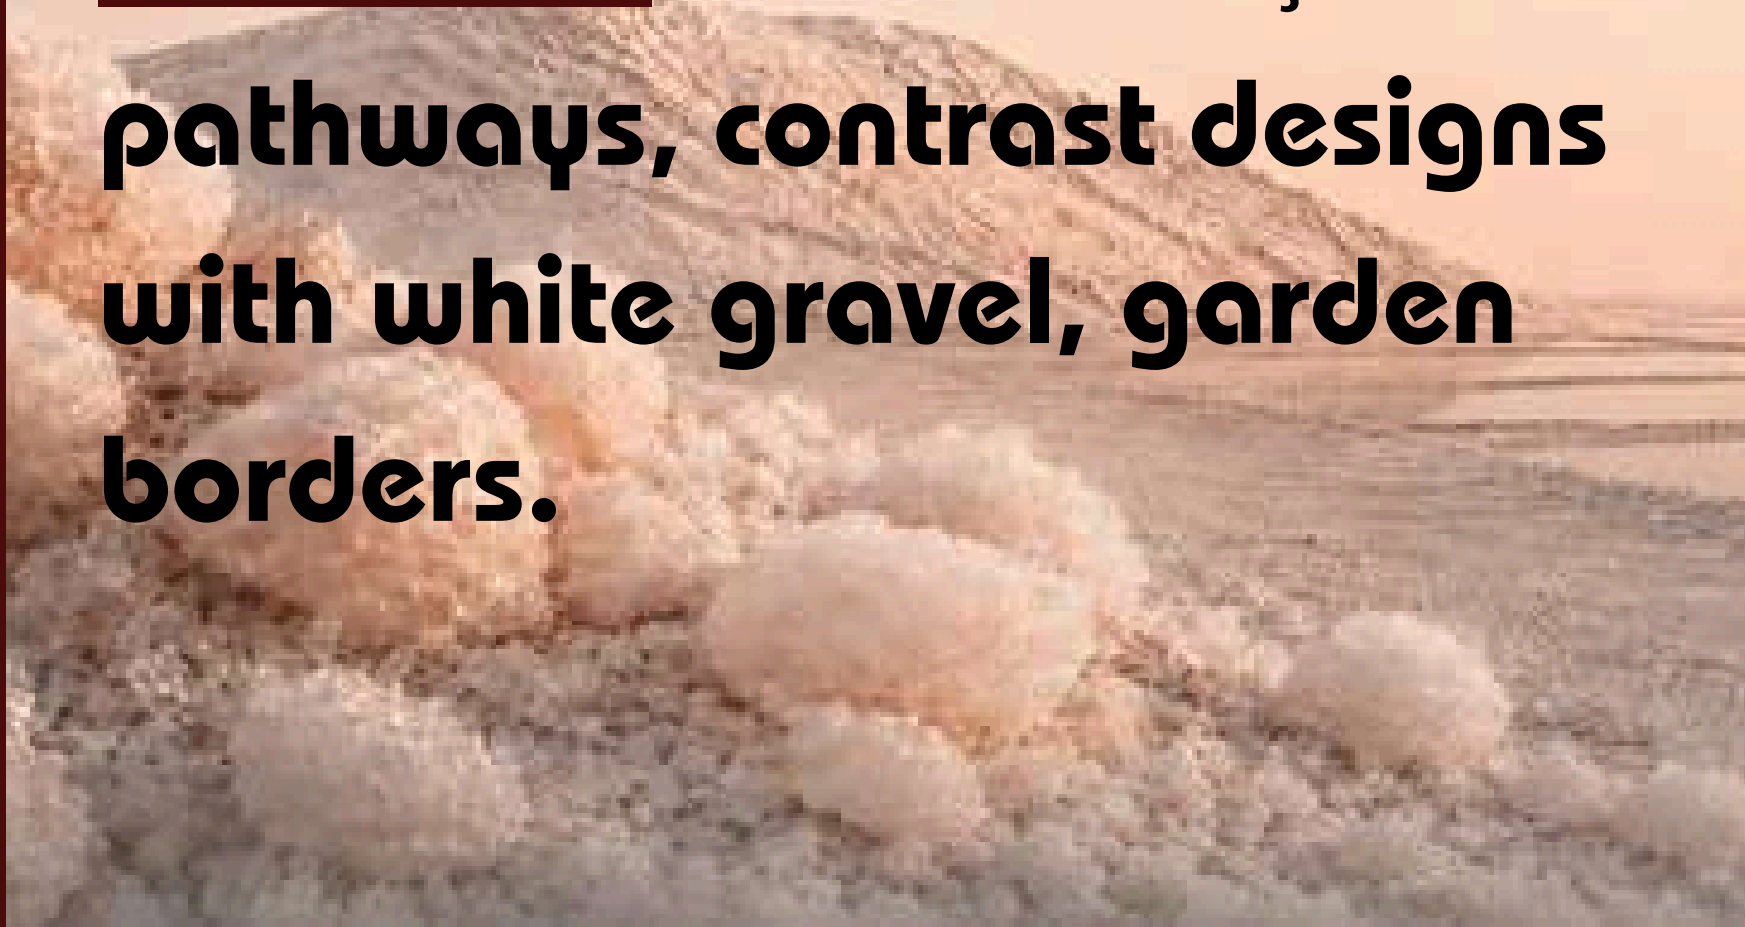

Decorative Gravel

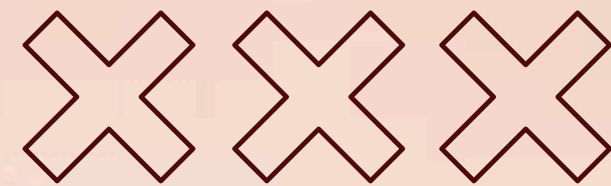

1-BLACK BASALT

Black or dark grey stone with a modern, strong appearance.

USED FOR Modern façades, pathways, contrast designs with white gravel, garden borders.

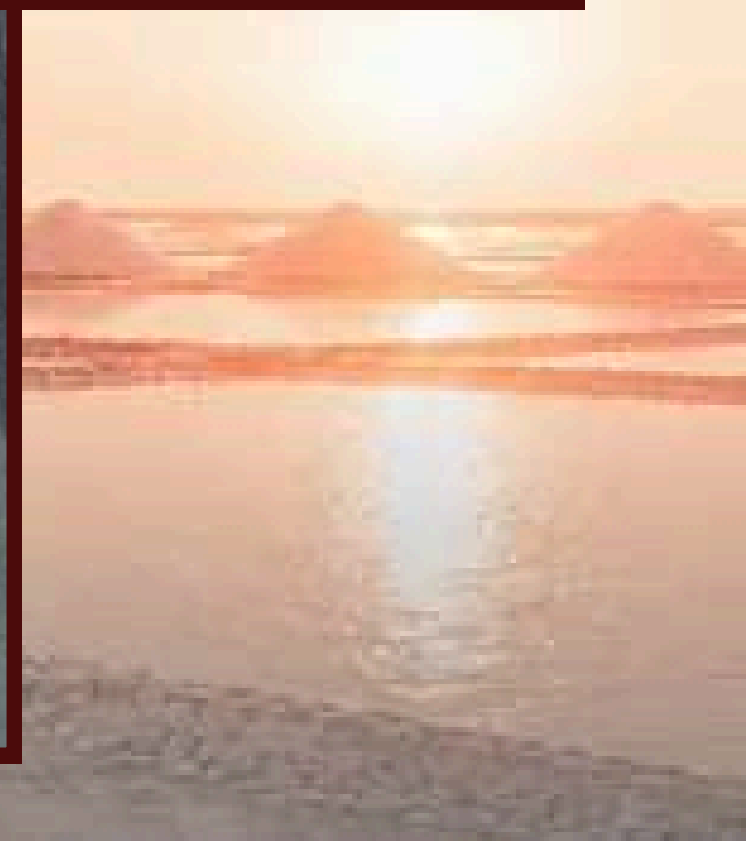

Decorative Gravel

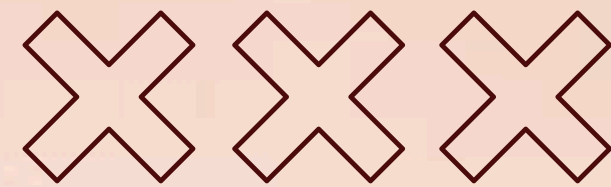

2-SNOW WHITE PEBBLES

White, rounded smooth stones Softer and more elegant than crushed chips.

used for indoor and outdoor decoration

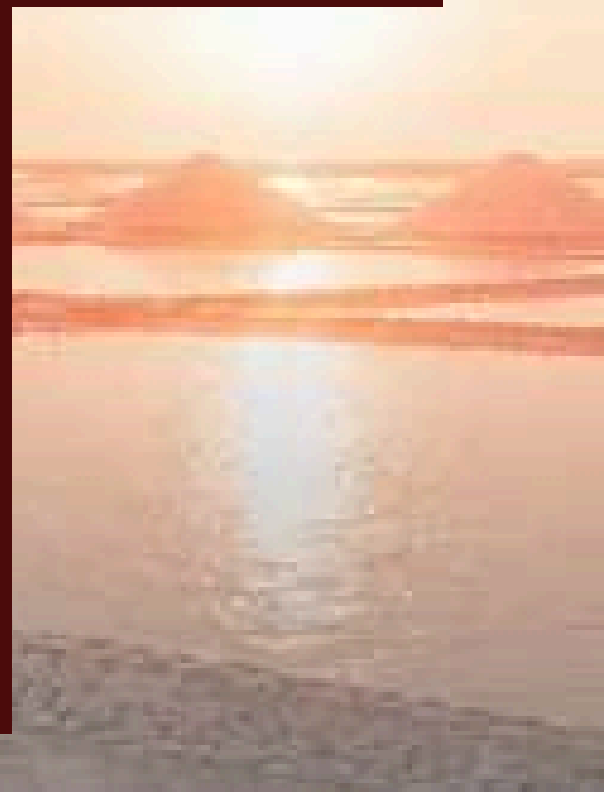

Decorative Gravel

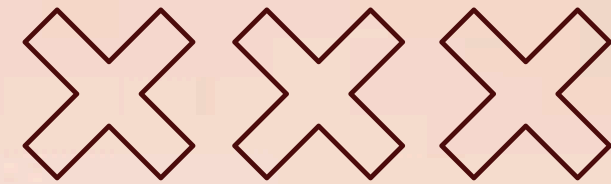

3-QUARTZ GRAVEL

White, milky, or semi-transparent hard stone with a slightly shiny appearance.

used for Premium decoration, planters, decorative borders, indoor and outdoor designs.

Decorative Gravel

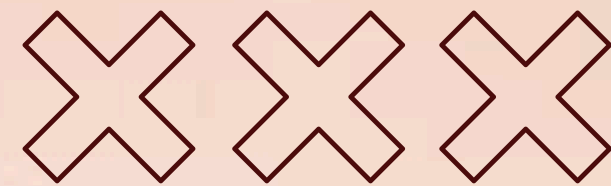

4-MIXED DECORATIVE GRAVEL

A selection of decorative stones in different colors and textures: white, red, grey, black, and natural tones.

used for landscaping
samples, showroom display,
garden design selection.

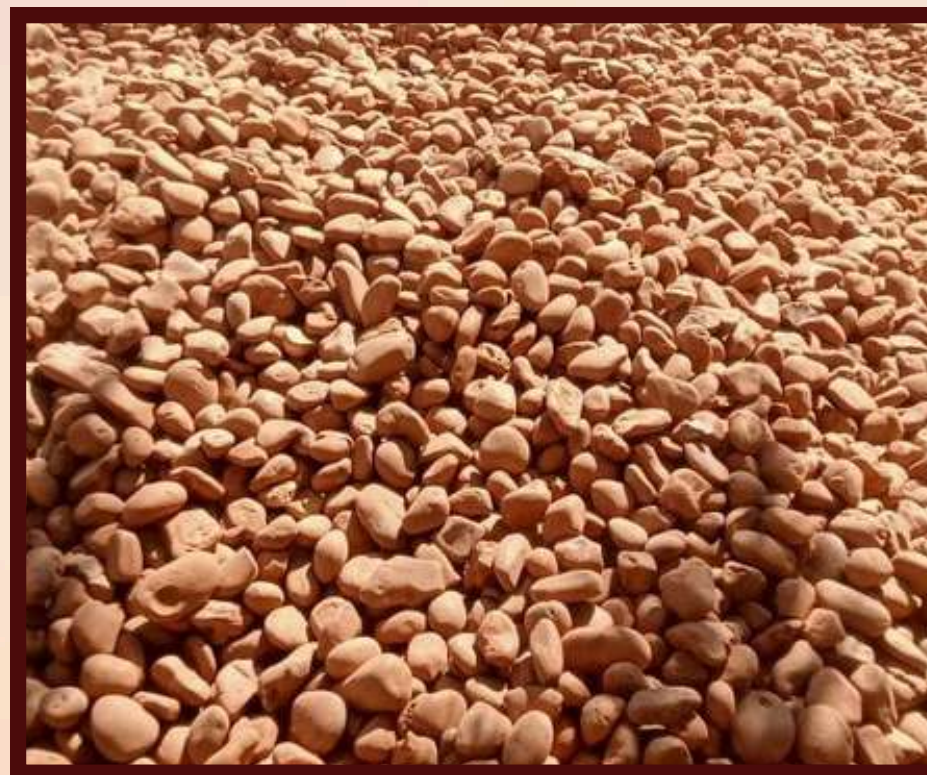

Decorative Gravel

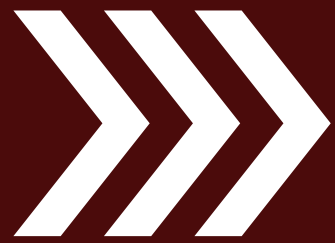

5-RIVER PEBBLES

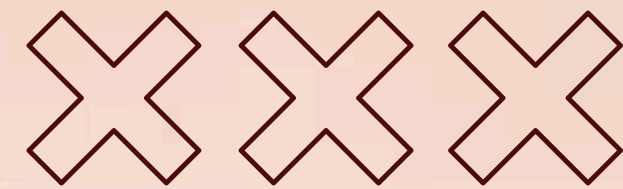

Smooth rounded with
different color stones

used for water features,
fountains, and organic
garden designs.

PACKING

DECORATIVE GRAVEL

Our decorative gravel are available in bulk and multiple packing options to suit different project needs, including 10 kg bags, 20 kg bags, 25 kg bags, and jumbo bags. Each package is designed for secure handling, easy transport, and reliable product protection during storage and delivery.

PACKAGING OPTIONS

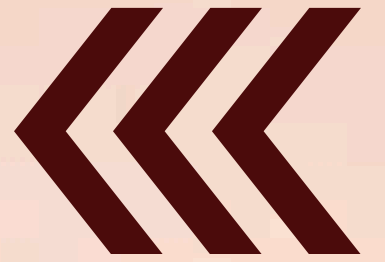

Secure. Durable. Convenient.

10 KG BAG	20 KG BAG	25 KG BAG	JUMBO BAG	
Compact & Easy to Handle	Perfect for Medium Projects	Ideal for Bigger Areas	Bulk Supply for Large Projects	
				
				
STRONG & DURABLE Packaging for Safe Handling and Transport	WEATHER RESISTANT Protects Stones from Moisture and Environmental Factors	SECURE PACKING Prevent Spillage and Ensure Product Quality	MULTIPLE OPTIONS Choose the Right Size for Your Needs	ECO FRIENDLY Recyclable Materials for a Sustainable Future

QUALITY STANDARDS & TESTING

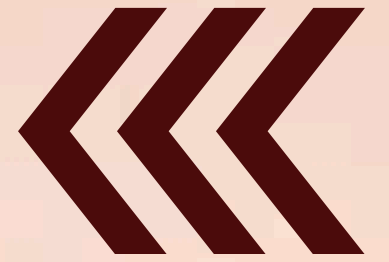

SCRETE MINING supplies salt products according to customer-required specifications, supported by laboratory testing and Certificate of Analysis (COA).

INTERNATIONAL REFERENCE STANDARDS

- **Codex Standard for Food Grade Salt – CXS 150-1985**
- **EN 16811-1:2016**
- **ASTM D632**

• Final specifications shall be confirmed according to laboratory analysis, COA, customer requirements, and applicable market standards.

SAFETY

SCRETE MINING is committed to safe and responsible operations across sourcing, processing, packing, handling, loading, and export activities.

Safety is a core part of our supply process, supported by safe working practices, proper equipment handling, risk awareness, and applicable safety requirements.

SAFETY POLICIES

- Safe material handling and loading operations
- Proper use of equipment and machinery
- Personal Protective Equipment – PPE
- Dust control and workplace housekeeping
- Safe storage and stacking of packed materials
- Safe container loading and transport handling
- Worker awareness and supervision

TARGET MARKETS

SCRETE MINING targets global markets through two main product categories: **Siwa Rock Salt** for de-icing, winter road maintenance, and industrial bulk supply, and **Solar Sea Salt** for industrial, pool, feed, food-related, water treatment, and commercial applications.

TARGET MARKETS

Delivering premium quality food grade salt to industries and businesses around the world.

FOOD INDUSTRY

CHEMICAL INDUSTRY

WATER TREATMENT

ANIMAL FEED

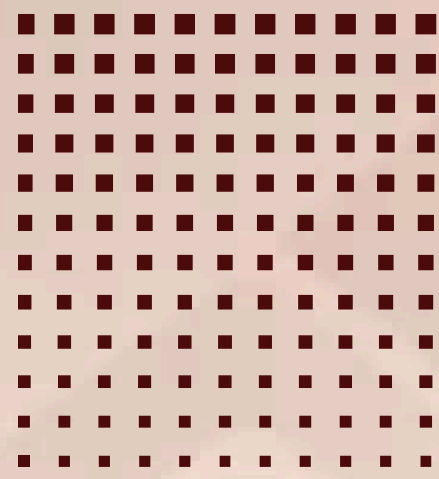

PHARMACEUTICALS

TEXTILE INDUSTRY

LEATHER INDUSTRY

OIL & GAS INDUSTRY

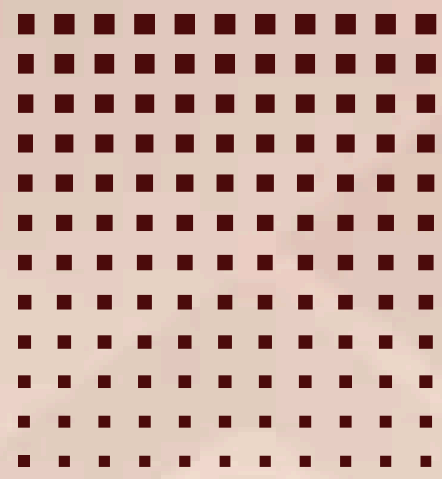

Screte MINING

FOR SIWA ROCK SALT:

- **Europe**
- **Eastern Europe**
- **Romania**
- **Ukraine**
- **Canada**
- **USA**
- **Boland**

FOR SOLAR SEA SALT

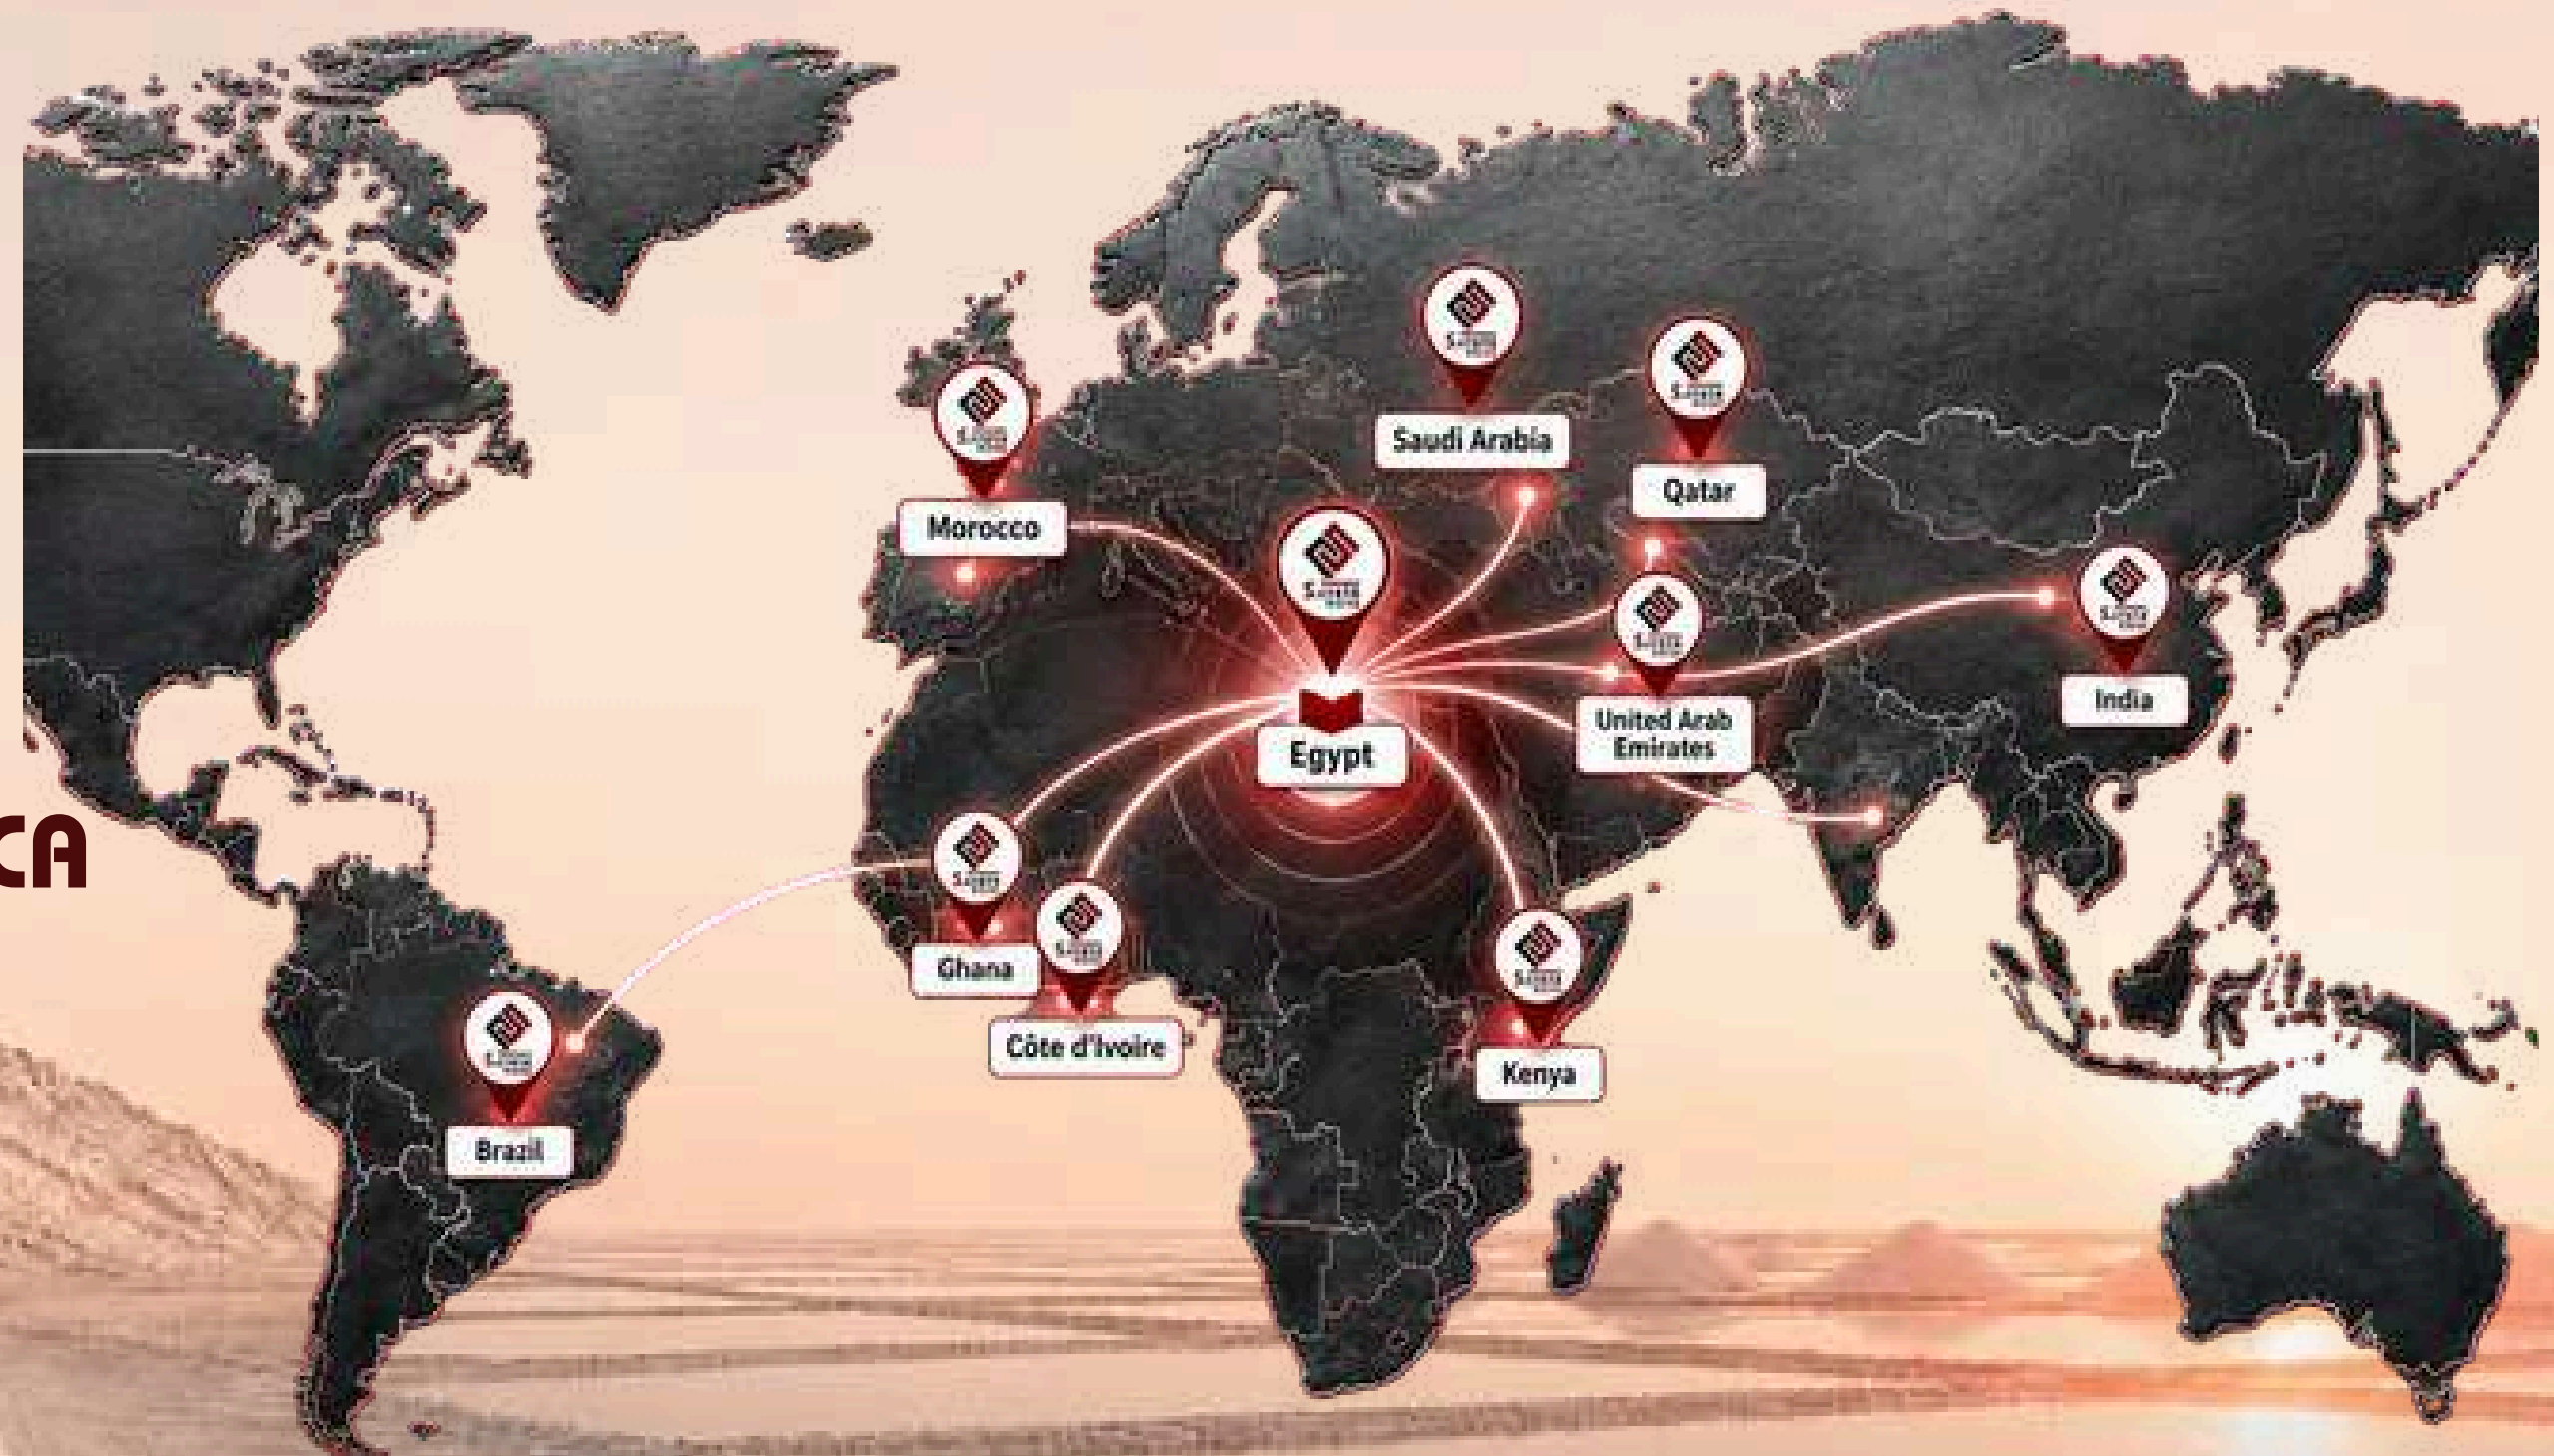

- **Middle East**
- **Gulf Countries**
- **Africa**
- **Asia**
- **Mediterranean Countries**

FOR CALCIUM CARBONATE

- **INDIA**
- **GHANA-KINYA**
- **Côte d'Ivoire - S.AFRICA**
- **S.A-UAE**
- **MOROCCO**
- **BRAZIL**

CONCLUSION

SCRETE MINING continues to build its international presence by **offering Egyptian Rock Salt and Solar Sea Salt through a supply model based on readiness, flexibility, and commercial reliability.**
